

A 20x20 grid with a central 10x10 pattern of colored squares. The background is dark gray. The central pattern consists of a 10x10 grid of squares in various shades of red, orange, yellow, and white, arranged in a symmetrical, somewhat abstract design. The pattern is centered horizontally and vertically within the 20x20 grid. The colors transition from dark red on the outer edges of the central pattern to bright yellow and white in the center. The grid lines are thin and black, separating the individual squares.
